

The Institute of Community Services Head Start, Inc. (ICS) Transition Conference 2025

Transitioning to Kindergarten is a time that presents changing demands and high expectations for children and their families. ICS is aware that good transition practices and activities can influence a child's academic achievement. With our public-school partners, we want to develop and implement a seamless kindergarten transfer connection that can have a big impact on future academic success. Our speaker for this year was Cameron Stewart who spoke virtually on "Understanding Autism." We have seen an increase in children with a diagnosis of Autism and believe it was an appropriate topic for discussion. To be able to share useful strategies and needed resources is beneficial for the children, families and our agency in preparing our children and families for the transition from ICS Head Start, Inc. to kindergarten." states Mary Lewis, ICS Special Services & Transition Manager.

60 YEARS of RESULTS
HEAD START | Since 1965

"What a great way to Celebrate -Transitioning our Children to the Next Level!"
